

BETTER IDAHO

“Common Sense Economics” is a tool for getting people involved in their communities and states to make the economy work for all of us, and not just big corporations.

- ▶ Good jobs and a strong economy are a direct result of political choices.
- ▶ Working Idahoans can impact political choices by getting involved.
- ▶ Idaho Union members CAN and MUST change the direction of our statewide economy.

It's time to break down the myth that the economy is outside of our control.

The Idaho State AFL-CIO urges you to join us at our “Common Sense Economics” Workshop. We are going to show you how to get that control back.

You, as members of the Idaho State AFL-CIO, invested in a valuable statewide polling project determine Idahoans’ top concerns and priorities, and the specific words, phrases and messages to use when talking or writing about these issues. Let’s make this investment work for us.

YOU are the Union in Idaho and WE can do this together!

Please join us at the
Lewiston-Clarkston Central Labor Council Meeting

Food & Drinks will be provided!

1618 Idaho St ~ Lewiston, ID 83501

Tuesday, September 16th

6:00 PM to 8:30 PM
